

Ahir Sarkar

Kolkata, India | ahirsarkar2022@gmail.com | GitHub | LinkedIn | Portfolio

Summary

Computer Science student at the Institute of Engineering & Management (IEM), Kolkata with a passion for Web3, blockchain infrastructure, and CAD design. Experienced in building decentralized applications, participating in hackathons, and developing products across the Stellar, Midnight, and Avalanche ecosystems. Active community builder, ambassador, and hackathon organizer dedicated to helping developers learn, collaborate, and innovate.

Education

Institute of Engineering & Management (IEM)

Kolkata

Bachelor of Technology in Computer Science & Engineering (AI)

Jul 2024 – Jun 2028

- CGPA: 8.20/10
- Relevant Coursework: Web Development • CAD Design • Web3 • Data Structures & Algorithms

Experience

Stellar Ambassador

Stellar Development Foundation

Present

- Organize workshops, hackathons, and developer-focused educational initiatives.
- Support developers building applications on the Stellar ecosystem.
- Promote blockchain education through community engagement.

Midnight Ambassador

Midnight

Present

- Support developers exploring confidential blockchain technologies.
- Organize technical sessions and ecosystem events.
- Advocate privacy-preserving decentralized applications.

Core Team Member

Builder Base

Present

- Organize hackathons, workshops, and community initiatives.
- Collaborate with developers to build a stronger builder ecosystem.
- Coordinate technical events and developer programs.

CAD Designer

Freelance

2022 – Present

- Design engineering-grade 3D models and manufacturing-ready prototypes.
- Create mechanical assemblies and functional product designs.
- Work extensively with Fusion 360, SOLIDWORKS, AutoCAD, and Autodesk Inventor.

Projects

Kairos

Autonomous Capital Management Platform

<https://github.com/wolf1276/kairos>

- Built a policy-driven autonomous capital-management platform on Stellar.

- Automated on-chain investment strategies through configurable policies.
- Focused on secure, transparent, and user-controlled execution.

ZEKURA

Privacy-Preserving DeFi

<https://github.com/wolf1276/ZEKURA>

- Developed a confidential decentralized exchange on Midnight.
- Implemented privacy-first trading using confidential smart contracts.
- Designed a clean and intuitive decentralized trading experience.

Doodle

On-Chain Freelance Marketplace

<https://github.com/wolf1276/doodle-hexafalls>

- Built a decentralized freelance marketplace.
- Implemented milestone-based smart-contract payments.
- Enabled transparent collaboration between clients and freelancers.

Voyra

Couples Travel Planner

<https://github.com/wolf1276/travel>

- Designed a travel-planning platform built specifically for couples.
- Enabled shared itineraries, saved locations, and collaborative trip planning.
- Focused on creating memorable travel experiences through intuitive design.

Achievements

- Winner — MLH × Solana Track, Hexafalls Season 2 (2026)
- 3rd Place Overall — Hexafalls Season 2 (2026)
- Winner — GeeksforGeeks Classroom Hacks (2026)
- Winner — Axiora Robotics Track (2026)
- Finalist — IDE Bootcamp, Ranchi (2026)
- International Finalist — IEEE YESIST12, Malaysia (2025)
- 3rd Place — IEEE Robotics Competition (2025)

Technical Skills

- **Programming Languages:** C++, Python, Java, JavaScript, TypeScript, Rust
- **Frontend:** React, Next.js, Tailwind CSS, HTML5, CSS3
- **Backend:** Node.js, Express.js, PostgreSQL, SQLite, REST APIs
- **Blockchain:** Stellar, Soroban, Solidity, Compact, Avalanche, Web3
- **CAD & Design:** Fusion 360, SOLIDWORKS, AutoCAD, Autodesk Inventor
- **Tools:** Git, GitHub, Docker, Linux, Postman, Notion, Canva
